

Sharing our learning & playing activities

We celebrated "Talk like a Pirate Day". Dressed up as pirates, listened to pirate stories, sang songs and learned to talk like a pirate.

"Road safety week" – children learnt the importance of keeping safe near and when crossing roads.

Children explored nature. They found acorns and used them to make patterns. Working as a team they made decisions and shared ideas

Investigated and explored Autumn leaves as their colours and size change in different seasons. They found insects, conkers, acorns and looked at them closely using magnifying glass.

Children worked as a team to build their own snowman using twigs, stones, carrots...

Children explored the snow, felt the crunch/texture of the snow, made foot prints, discovered that warmth makes the snow melt and had LOTS of fun!!
