"Every child matters and the very best start. They deserve to be seen, understood and supported. Through early identification and strong partnerships with families, we are committed to nurturing each child's individual strengths and ensuring they thrive".

## Graduated Support

We have three stages of Graduated Support

Level One - Supporting high-quality teaching, reasonable adjustments and simple resources to help children develop. These include:

- Movement breaks
- Sensory activities
- Access to calm, safe space
- Access to pictures to show activities and order of the day
- Makaton supported communication for all

Level Two - If the above is not sufficient an assessment plan is worked on looking at:

- Meet the parents/carers
- Identify the specific need
- Develop a targeted support plan
- Develop expected outcomes
- Implement the support
- Measure the impact
- Revise as necessary

Level Three - Education, Health and Care Plan (EHCP)

If a child is not meeting expected developmental milestones the following is implemented:

- Engagement with parents/carers to open communications
- Visual aids
- Structured routines
- Small-group activities
- Supportive communication strategies

Some children may need an EHCP. This is a legally binding document developed through a local authority assessment. It outlines the child's needs and the support they should receive.
